

Do you (or your family member) receive home and community-based services (HCBS) through the Nevada Intellectual Disabilities Waiver?

If so, we want to hear from you!

Health Management Associates is looking for your feedback, on behalf of the Nevada Aging and Disabilities Services Division. We want to hear how things are going for you with your services and supports! Your input will be anonymous. State staff and providers are not invited to these meetings. The meetings are only for people with disabilities and family members.

Specifically, we want to learn how well the state is doing on two things:

- **Person-centeredness** (Are services delivering what is important TO people and what is important FOR people? Are case managers helping people in the ways they need?)
- **HCBS rule** (Are people's rights and freedoms being supported? Are people able to experience and participate in the broader community?)

Please join us for one of our VIRTUAL discussion groups:
